

Map Holder for Mountain Bike Orienteering

MTB Extreme

Robust, light and stable map holder for MTB-Orienteers who demand the best performance at a low weight

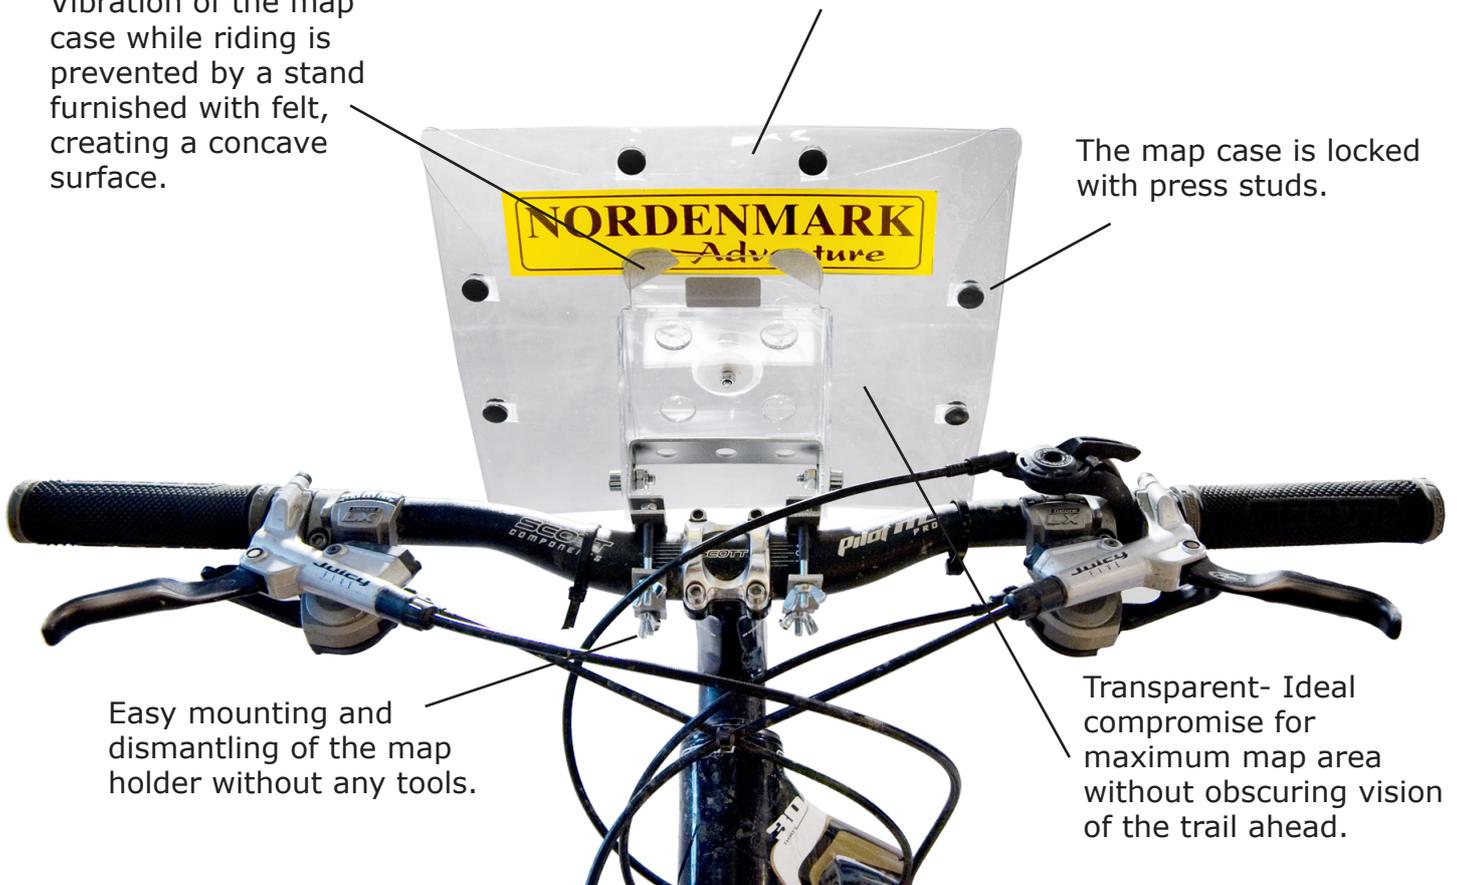

Weight: Holder 180g, standard map case 150g.
Durable and versatile. Fits standard and oversize handlebars up to 35mm diameter.

Designed and manufactured in Sweden

360* Turnable map case.
Size: A4+ 225 x 305 mm.

Vibration of the map case while riding is prevented by a stand furnished with felt, creating a concave surface.

The map case is locked with press studs.

Easy mounting and dismantling of the map holder without any tools.

Transparent- Ideal compromise for maximum map area without obscuring vision of the trail ahead.
